IFS INTERIM CHANGE PACKAGE (ICP) 14-01 (10 July 2002)

PURPOSE: ICP 14-01 incorporates data elements to track Sustainment, Restoration/Modernization (S/RM) for Department of Defense Instruction (DODI) 4165.14 "Inventory of Military Real Property". Also included are changes to several IFS broadcast tables. A policy letter explaining the changes will accompany ICP 14-01 when distributed to the field.

- **Changes to DODI <u>MUST BE</u> fielded and loaded before the 30 September 2002 data pull (HQIFS); therefore, it is imperative that installation SA/DBA's load ICP 14-01 <u>BEFORE</u> the HQIFS pull date.**

- **SCP 14-00 must be loaded before ICP 14-01 can be loaded.**

- **As a special note, the postal zip code of the installation's primary mailing address; (e.g., Garrison headquarters (CONUS) or the military post office designator for the overseas installation; e.g., Garrison headquarters) for each installation in the database should be accessible when loading this change package. Example: 22315-5262 or APO AE 12345-0101 or APO AP 96205-0009. <u>This is a mandatory entry and the VDD will pause for installation zip code input.</u>**
